

Theme 01: SPACE TYPES

Space Types: What are the kinds of spaces you come to the library for? What are the characteristics of those spaces? What is it like where you study?

Top “SPACE” requests

- Range of seating types, styles, comfort, adjustability + have these categories in different types of environments
- Group Study Rooms
- 24/7 Study Space
- More/better bathrooms
- Storage – different types, different sizes, multiple locations through the building
- Café – grab and go /or/ pop up?
- Charging stations
- Quiet study spaces surrounded by books
- Rooftop terrace
- More centralized tutoring space
- De-stress / meditation / playground / rejuvenation / wellness / sleep pods
- Spaces for discovery
- Un-dedicated/un-programmed spaces for creation / “outlet for expression”
- “Children Welcome” space
- Individual study (could be clustered)
- Group study: public/open vs. private/reserved
- Extended/ assigned research projects spaces?
- Nooks / carrels/ focused spaces

Top space “CHARACTERISTICS”

- Natural light + effective artificial light + control and adjustability of both
- Ambience = Coziness, elegance, “old library feel”, “classy”, “heritage”, “natural”
- Appropriate noise separation
- Views
- Comfortable temperature / air quality
- “Hot” and “Cold” spots
- Movable furniture
- Access to plants/nature within the building
- Clear wayfinding/ signage / intuitive building and stack layout
- Calming, happier, more consistent color and materials
- “Hot” and “Cold” spots
- Big tables
- Better reading light
- Smaller group tables – compromise between intimacy of carrel and communication of group work

terminology/taxonomy exercise: each table is a space type - what are you doing here? What do you need to do it? What would it be called?

09.23 // SPACE TYPES

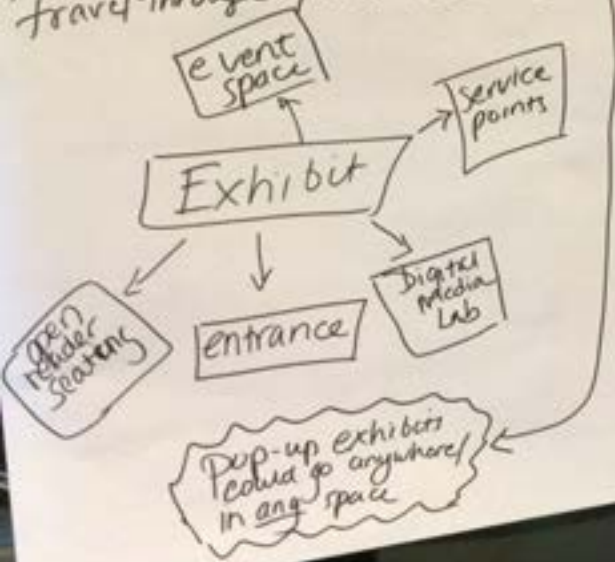

Exhibit: adjacencies

Too confining if our exhibits travel through spaces + locations

ANY ENTRANCE SPACE ^{24-hour} NEIGHBORHOOD

(Assuming @ least 4 public entrances)

Service point / staff desk?

Multipurpose

Self check-out

Reasonable GROUP STUDY

Event space / part space? Atrium? Cafe?

LEADER READING ROOM

How can we see stacks? (So it feels like a library)

Digital Media Lab

- Project neighborhood
- prepping/making/working
 - service point / staff desk
 - gaming studio
 - classroom
 - recording / listening

- NOT adjacent
- Books / papers
 - Cafe
 - Legacy reading room
 - Special Collection
 - Stacks
 - Entrance
 - Event space

CAFÉ

What should be near the cafe?

- 24-hour space
- should call by 24 hour space?
- event space
- large meeting space
- reception area
- elevator (if no nearby)
- easy access to loading dock
- entrance
- outdoor space
- patio
- lawn space

Recording / Listening

Outdoor Space

NOOK / CARREL

Group Studies Area

STEP 01

What about open study spaces?

Cafe!

- tables, stools
- something like the CC cafe
- in library space
- social space

24hr space

- near the entrance
- wall sit
- free study space, quiet area (cave? room?)
- under
- workbenches, monitors
- windows / natural light

Prototyping/Making/Crafting

- basic tool box
- craft box
- space to get dirty
- lots of writing surfaces
- cutting mats
- recycling / trash cans
- Comps. to Adobe Suite
- Print Desk Rhino ETC
- etc! → 24/7
- A shop. move the CDT in here?
- ~~store~~ store for materials
- public transportation area w/ a bench and for public

ROOF

- climbing structure
- fire pole
- roof garden
- outdoor furniture
- concert space
- beer garden
- sight seeing
- outdoor arcade

community garden

fashion

shared space

STEP 02

10.14 // SGA MEETING – SPACE TYPES

What we heard about a **24 / 7 space**

Who?

Smith Students

writing papers, reading,
using e-reserve

Where?

Near the entrance,
accessible, well-lit, **SAFE**

May have a different
function during the day

What?

Human scale of intimacy

Outside the book
security envelope

Include group study area
and quiet area

One-card access

“Warm and Comfy”

Tools:

printer, whiteboards,
monitors, flexible
furniture, lockable
storage

device chargers,
(otherwise low-tech)

bathroom, book return
good lighting, fireplace?

What we heard about a **Cafe**

Who?

All

*students, faculty, staff,
community, outside
researchers*

Where?

Near the entrance,
could overlap with 24 hr.
space.

Easy access to: loading
dock, entrance, event
spaceand outdoor
space

What?

A food-oriented social
space

**for: eating, drinking,
socializing, checking
email, studying,
homework, watching
movies**

Good/ varied lighting +
Acoustic (and smell)
separation

Tools:

self-service vending
and hot/cold/bottle
water dispenser
space to lock valuables
Tables, booths, art,
“phone booths”

Wi-Fi

What we heard about a **Digital Media Hub**

Who?

All

*students, faculty, staff,
outside researchers*

Where?

Near prototyping/making/
creating, service point,
gaming studio,
classroom,
recording/listening.

Far from nooks/carrels,
café, legacy reading

What?

Actively creating media &
collaborating

create/display/share

Printing/scanning of
physical objects

make videos, podcasts,
posters, digital storytelling,
websites, interactive media

Tools:

Equipment storage/
retrieval, flexible space
and technology

Teaching space

Reservable space

Telepresence/VC/Live
Broadcasts

What we heard about **Exhibit**

Who?

Open to everyone

+

Exhibit Creators: Provide space for student work & faculty/staff work (in addition to Special Collections)

Where?

Central gathering

Near event space, digital

media studio

+ pop up exhibits

Near special collections

What?

Display Materials that draw people in

Space for

experimentation =

Incubator space, “library test kitchen”

Accessible

Rotating

Increase visibility

Tools:

Good lighting, flexible display options for different sizes/shapes/formats

What we heard about **Prototyping/Making/Creating**

Who?

All

students, faculty & staff

Where?

Near: digital media hub,
exhibit, events space,
meeting/consult spaces,
teaching/classroom

What?

Public brainstorming
Research/Teaching/
Learning through
making

Tools:

Basic tool box,
lots of writing surfaces,
cutting mats,
recycling/trash cans,
digital tools (Adobe,
Rhino, GIS?)

What we heard about **Group Studies**

Who?

All

students, faculty & staff

Where?

Throughout the building

What?

Acoustically separated
“rooms”

variety of sizes, variety of
reservability, variety of
levels of technology

Provide for a variety of
uses and include
adjustability/flexibility

Tools:

Project tables/ spaces to
spread out / get messy

Adjustable lighting,
tables and chairs

Whiteboards, large
screens/monitors

What we heard about **Nooks / Carrels**

Who?

All

Students, Faculty & Staff

Where?

Throughout the building
but especially in areas
that are tucked away or
surrounded by books

What?

Protected/closed spaces
to: campout, sleep, read,
study, write, work quietly
24 hr. access?

Tools:

Task lighting, adjustable
height desk and chairs,
clear protocol and
policies
Outlets, lockable
storage, security, shelves

What we heard about **Outdoor space**

Who?

All

*students, faculty, staff,
community, outside
researchers, visitors*

Where?

Rooftop

Around the perimeter of
the building

What?

Design that encourages
a range of activity/sound
levels,

fully accessible,
amphitheater classroom
for speeches, readings,
lectures

Water feature?

Tools:

Movable seating

Blanket/towels for lawn
study

How do you extend the
seasons? Heat lamps?
Umbrellas? Sun room?

What we heard about **recording/listening**

Who?

All

*students, faculty, staff,
outside researchers,*

Where?

Near special collections
and Digital Media Hub

What?

For: Oral history
recording, watching
videos, listening/studying
music, practicing
language

Some individual & some
group

Tools:

Multiple outlets,
considerable writing
spaces

Analog and digital tools +
pc & apple

prototype a “mini-library”

10.21 // SPACE CHARACTERISTICS

ROOM

Lessons of Prototyping...

ADJACENCIES:

- Find ways to accommodate groups and individuals near each other
- Interdisciplinary hub: shared teaching/collaborative spaces and a curated reference collection – focuses inward and outward
- Transitioning between spaces: social/public **TO** private
- Stacks can be natural boundaries

Lessons of Prototyping...

CHARACTER:

- Noise levels: Layer privacy and quiet as you move away from the main entry (both up and down?)
 - *“sound is a huge piece of where you learn best”*
- Connections to nature: *“sort of outdoor, sort of indoor”*
- Light, comfort, synergy

Lessons of Prototyping...

USER CONTROL:

- Flexibility + empower users with ways to control their environment
 - *Users/individuals/groups have **control to change** spaces for their use/learning style or needs*

+

- Range of spaces and seating types to pick from (**go find “your” space**):
 - *Individual + shared study spaces, collaborative spaces, spaces with technology*
 - *Meditation/thinking space*
